

## Module 1

Machine Learning- KNN, Naive Bayes, Linear Regression, Logistic Regression, Decision Tree, Ensembles, Clustering, PCA, etc

## Module 2

Deep Learning – ANN, Optimization, Activation Functions,  
Forward and Backward Propagation,

## Module 3

Computer Vision – Open CV, CNN, R-CNN

## Module 4

Natural Language Processing – NLP, Text Preprocessing, RNN,  
LSTM, Transformer

## Module 5

### Model Productionisation
